EXPANDO-VISION™
Straight To The Mind's Eye

YOUR MIND SEES MORE THAN YOUR EYE

Join the Movement to Computer-Age Self Improvement!

Use your television set, an inexpensive personal computer, and the **Expando-Vision™** system to transmit positive suggestions to your subconscious.

Your eye will not see the subliminal messages (flashed periodically at 1/30 of a second) on your television screen while you watch your favorite programs...but your subconscious will. You don't have to know a thing about computer technology to operate the system. You just connect it and let it do the work for you.

Use it daily and improve your life!

The enclosed computer software must be used with a home computer equipped with an **Expando-Vision** Electronic Interface Device (sold separately).

The **Expando-Vision** system could be your pathway to freedom...freedom to be the confident, whole person that you want to be. Buy it for yourself or someone you care for.
